## Asbestos Management Plan Available for Review by Parents, Teachers, and other Employees

Our school district has conducted an extensive asbestos survey of all of the buildings in the district. Based on the findings of this inspection, a comprehensive management plan was drafted. This plan details the response actions that the district will be taking regarding asbestos containing materials found in our buildings. We are fortunate to have very little.

Our management plan only requires that we do routine "operations and maintenance." We have recently had the required 3-year re-inspection. No major "response actions" were required in the past year.

The Asbestos Management Plan is available for inspection at our offices without cost or restriction during normal business hours. If you desire to have a personal copy, please notify the main administrative office and it will be supplied to you within 5 working days at a cost of \$.30 per page.

Our administrative office is located at:

215 W. Chicago St.  
Bronson, MI 49028

We have endeavored to make our schools a safe place in which students can learn. Our procedures for dealing with this problem reflect that concern. Please let us know if we can answer any questions.

Sincerely,

James R. Modert  
Assistant Superintendent
